

## WITTE WON'T WAIT FOR CZAR LONGER

(Continued from First Page.)

striker here to-day threw a bomb at the chief of police while he was driving through the principal thoroughfare. His carriage was wrecked and the chief was badly injured. Two Cossacks who were escorting him were badly injured.

(By Associated Press.)  
ODESSA, October 28.—The report that a mutiny had occurred on board the Russian battleship Catherine II, is incorrect. The Catherine II, has arrived here. The Black Sea fleet moved off the coast of Asia Minor Friday and proceeded to Trebizond.

(By Associated Press.)  
ROSTOV-ON-DON, October 28.—Mobs of Cossacks are parading the streets and looting and pillaging isolated houses and stores. Four persons have been killed by mobs. The schools are closed and shipping has ceased.

(By Associated Press.)  
ST. PETERSBURG, October 28.—Telephonic communication with Moscow has been resumed.

(By Associated Press.)  
KHARKOFF, RUSSIA, October 28.—There was a great demonstration at the burial to-day of the fifteen victims of the recent rioting, but the students and workers marched through the streets without any display, singing the "Marseillais" and "Dirge music." At the cemetery revolutionary speeches were made over the graves, which were adorned with red flags. The troops and police were powerless to interfere. Subsequently martial law was declared.

(By Associated Press.)  
WARSAW, RUSSIAN POLAND, October 28.—The streets are filled with panic. It is rumored that the strikers are marching on the city from the provinces. By order of the governor-general, the gates of Warsaw are closed at dark, and the restaurants close at 7 in the evening. Thirty Russian soldiers, armed with machine guns, have been sent to the city in readiness to stifle any disturbances. The military at noon dispersed a meeting of the employees of the Vienna Railroad, who had gathered to discuss the situation.

The revolutionary leaders are reported to have distributed thousands of revolvers to the strikers.

Infantry are camping in the streets of Lodz. All traffic there has stopped.

## CZAR HESITATES TO YIELD ALL TO WITTE

(By Associated Press.)  
ST. PETERSBURG, October 28.—Day after day passes without the conclusion of Russia's new governmental organization—a responsible ministerial cabinet to bring order out of the present administrative chaos. Count Witte, to whom all factions look to assume the premiership, has spent almost the entire time of the past two days at Peterhof wrestling with the Emperor, insisting upon conditions in connection with his appointment. Upon his return to St. Petersburg to-night Count Witte announced that the cabinet project, which has been lying signed for three days on the Emperor's table, would not be promulgated to-morrow, intimating thereby that his program, which is known to include a species of constitution involving the granting of a free press, freedom of speech, freedom of assembly, freedom of the press and freedom of the person—has not been accepted.

It is felt that the delay cannot be long protracted and that it is only a question of hours when the Emperor will concede the fortunes of the dynasty and government to Count Witte's hands. Meanwhile the situation is passing from bad to worse with matters at the summit in a state of unstable equilibrium. The chiefs of state are at a loss how to act, and the revolutionists encouraged by the inactivity of the government, are growing bolder and more insistent in the demands made in their speeches.

## AGITATORS MAY THINK LACK OF BACKBONE

It is true there has been no disorder in St. Petersburg and that General Trepoft, Russia's other strong man, has taken every measure to put down an uprising in its incipency, but he has not felt sure enough of his position to hold any sort of a revolutionary meeting at the university and has contented himself with issuing warnings which, not having been enforced, are taken by the agitators as evidence of lack of backbone.

At a before Friday's great meeting at the university, it was again announced to-day that further meetings there would not be permitted, but the college portals were again open to-night and the hospitality of the university was extended to a group of lawyers and other professional men, one of whose orators referring to the old Russian folk legend that the world is supported on the backs of three whales, said that the authority of the government was the first whale, the army and the loyalty of the people, but that Russia is now bankrupt and the moral sympathy of the people alienated and that the army alone remains true and that he predicted revolution for long.

Another speaker openly preached terrorism and advocated "making an example" of a number of high personages.

## Piles Cured

Suffering for Years, and Bed-Ridden From Piles, a Contractor of Marion, Indiana, is Cured by Pyramid Pile Cure.

Trial Package, Mailed Free to All who Send Name and Address.

"I was troubled with piles for several years before I would let it be known. But at last they became so severe that I could not walk and I had to take my bed. I tried everything and anything the doctors prescribed, and took their treatments for a long time. But nothing ever did me any good. I had seen your ad. in different newspapers, and I got a 5-cent box and began using them. From the very first I got relief and I continued to use them until on my third box I was cured. I have not been troubled with them since. Now you can use this as you please, because it is genuine. Yours, T. A. Sutton, Stone and Cement Contractor, Marion, Ind."

Instant relief can be gotten by using the marvelous Pyramid Pile Cure. It immediately reduces all congestion and swelling, heals all sores, ulcers and irritated parts.

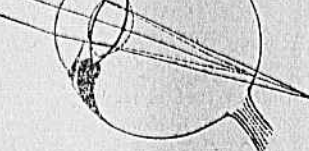

The moment you start to use it your suffering ends and the cure of your dread disease is in sight.

The Pyramid Pile Cure renders a surgical operation foolhardy. Don't back to place those piles which have been troubling you at your doctor's for 50 cents, or if he hasn't it, send us the money and we will send it to you.

## Impingement, or Waste of Nerve Energy

The Cause of About 85 Per Cent.  
of All Human Ills.

THE EYES are the only organs of the body able to and that will involuntarily overcome their own deficiencies by an extra demand upon the nerve supply; consequently they are the most prolific source of nerve waste. PERFECT EYESIGHT does not necessarily mean perfect eyes. There is a certain class of defective eyes in which vision is often better than normal, although it seems a hard thing to convince the average mind that such could be possible. Look at this drawing, which shows a defective eye. This is the lower half of the right eye. Now it is the function of the perfect eye to see an object, not only at a distance, but also at a distance. In other words, light from a distance should come to a perfect focus upon the retina, thus forming the image of the object looked at, with the eye in a state of absolute rest.

In the imperfect eye we have before us, the refractive media (the cornea and lens) are too weak, or the eye is too short; thus light, represented by the straight lines, does not come to a focus upon the retina while the eye is in a state of rest, but at a point far behind. This is the most common of all eye defects. But nature realized the value and necessity of eyesight, and in her all-wise and governing wisdom gave to the eyes the power of overcoming their deficiencies in their anatomy, although such is accomplished at a tremendous strain upon the nerve supply. By using the mechanical arrangement provided around the lens, it can change the curvature of the lens so that rays of light will be as shown by dotted lines, thus increasing the power of its refractive media, and the increased power forces the rays of light to follow the dotted lines from the lens to the posterior pole of the eye, thus forming the image on the retina as if the eye were perfect. Such cases often see better than normal, because the focusing has to be much more powerful. It is known, however, that the eye is not of accommodation being required constantly during every hour the eyes are awake means an enormous strain on the nerve supply in the cerebellum, and not only affects the eyes, for this extra current of nerve force cannot be turned on for the eyes without turning on the same voltage of amperage (to use electrical terms), to all other departments of the body. As similar functions in other departments are more easily affected if one of them is irritated, Spinal system, through the body, and the brain, and the other apparatus overdo their work, while the eyes accomplish the object they undertook, namely, vision. They may feel all right, while the other departments are having all kinds of trouble.

Just such defective eyes are the primary cause of at least eighty-five per cent. of all chronic nervous ills and so-called diseases, such as headache, indigestion, constipation, female troubles and many others are simply derangements of the nervous system, which need medicine no more than the earth's axis need grease, despite the fact that countless tons have been taken and thousands of dollars paid for it. Good results come not, and permanent results are never obtained until the cause has been located and removed.

This is our whole business. Without drugs or surgery. "WE REMOVE THE CAUSE; NATURE DOES THE REST."

Nature, assisted by our apparatus, does the work that is as wonderful to the average physician as to the layman. Because our method is entirely foreign to those of the old schools, but we are glad to explain and show their simplicity to either.

Some are skeptical of our claims, who say if such were true some of our great scientists or professors would have discovered it long ago. Why didn't the old philosophers discover the planetary movements before Galileo was born? Why didn't Franklin discover wireless telegraphy? Because all human progress is not of this kind, but of the kind that is practically demonstrated. We point with pride to hundreds of cases where our system worked after all others had failed, which is the most practical demonstration of its merits that could be given.

Our patrons are numbered by the thousands. Why? Because we have the only system of practice in which results can be guaranteed.

attempt at formal insurrection is not known.

A meeting of strikers called to take place in the Assize courts at noon to-day turned out to be a fiasco. The police succeeded in preventing all except a hundred persons from entering. The strikers broke a number of store windows.

The strike committee, which is directing the movement here, is well organized, and is sitting constantly. Its members are observed unobtrusively by the workers. One of the members to-day advocated attacking the arsenal, but his comrades opposed violence.

The committee consists of representatives of the Social Democrats, the two factions of which have settled their differences, and are working in harmony. Outsiders are not admitted to the sessions of the committee, which up to the present time have been held in the technological institute, the director of which has received a warning from General Trepoft not to permit them any longer.

A prominent member of the committee informed the Associated Press to-day that there was little probability of an armed uprising in St. Petersburg. He said:

## RIFLES FOR A DIVISION NOT TO TURN ON TROOPS

"We have arms, but not enough to give any hope of success so long as the army is loyal. There are eight thousand rifles in St. Petersburg as well as revolvers."

As the day advanced the military patrols were multiplied, but no violence was reported, the streets being almost deserted save for throngs of idle workmen. Groups of agitators are entering all the stores and banks, which are still open, insisting on their immediate closing. The authorities seem to hesitate to employ force.

The strikers evidently have some funds, but whence they have been derived is a mystery. According to rumors the Moscow millionaire merchants who have been supporting the constitutionalists have made large contributions to continue the strike under the belief that the government will be forced to surrender.

Rations for ten days have been distributed at all the barracks. Two Moscow merchants arrived here during the afternoon, having covered the distance in a motor car. They reported that the city was in an almost frenzied state of agitation.

## FOREIGNERS REQUEST NOT TO TURN ON TROOPS

The foreign residents here are extremely nervous and have begun to besiege their embassies with inquiries as to what will be done to protect them in case the mob gets the upper hand. Requests for protection are also being made to the British legation. This is especially the case with the British embassy. Large property interests are also asking for military protection. All such requests are being sent immediately to the foreign office in London.

The government could give little special protection to foreigners. Should an armed uprising take place the foreigners will have to take their chances with the native population. A large number of Americans have written to the British legation, asking him whether they had better try to leave the country. The embassy's courier, who is in Berlin, has been instructed to come immediately by boat. In the meantime Mr. Edly is going out of the city by the English courier via Helsingfors.

Urgent appeals have reached the British embassy from Ekaterinoslav and Grozny in Northern Caucasus, where large English works are threatened. The feeling generally at the embassies is one of extreme tension and nervousness, but there is manifest unwillingness to prophesy the result. If the worst should come warships could enter the Neva and protect foreigners.

## TO ACT INDEPENDENTLY OF IMPERIAL AUTHORITIES

(By Associated Press.)  
MOSCOW, October 28.—At a meeting of delegates representing the different political parties, it has been decided to act independently of the government and to act independently of the imperial authorities. The city was in darkness last night. To-day shops, theatres and schools are closed, and the streets are deserted save for the troops and streams of workmen. Several meetings of strikers were dispersed by Cossacks. The banks, treasury, post-office and the government governor's office are surrounded by troops. The local merchants are asking for a postponement of the payment of bills. The governor-general has formally postponed the auction of peasants' property, which was to be sold for 10 days.

## Water Twenty Cents a Pail.

Board of trade has petitioned against the state of siege, prices are very high. Water is twenty cents a pail. The greatest alarm prevails owing to the rumors that workmen are marching on the town from the factory districts. The electric light works have been closed. The last government spirit shop is closed. Eight banks have closed, and the bourse remains closed. The town council has decided to sit permanently.

## CAME TO MARRY AND MET HIS DEATH

Eugene A. Nesbitt Found Dead in Bed at Boarding-House.

(Special to The Times-Dispatch.)  
WEST POINT, Va., Oct. 28.—A telegram received by Mr. A. W. Eastwood states that his brother-in-law, Mr. Thomas Nesbitt, died at his residence at 320 E. Main Street, Monday morning at 11 o'clock. He will be buried in West Point cemetery Tuesday morning.

## George Dobyns.

(Special to The Times-Dispatch.)  
ROANOKE, Va., October 28.—Mr. Geo. Dobyns, an old citizen, died suddenly to-day from heart disease, aged fifty-eight years. He was a native of Floyd county, and one of the best known men in this section of the State. He is survived by his wife and one child.

## DEATHS.

HARKER.—Died, at the Retreat for the Sick at 8:30 A. M., October 28th, Mrs. MARY S. HARKER, leaves one son, HARKER, and one daughter, HARKER. Funeral from Christ Church MONDAY MORNING at 11 o'clock. Interment in Oakwood.

BELT.—Died, at his residence, 623 North Eighth Street, JACOB BELT, in the seventy-third year of his age. Funeral will take place from St. John's Evangelical Lutheran Church MONDAY MORNING at 11 o'clock. Interment in Oakwood.

KLEIN.—Died, Saturday, October 28th, 1905, at 9:30 P. M., at his residence, 623 East Broad Street, GEORGE KLEIN, in his sixty-sixth year. Funeral notice in Monday's papers.

MACPAILLANE.—Entered into rest Saturday, October 28th, at 4 P. M., Mrs. NIE PETICOLA MACPAILLANE, wife of C. F. MacPaillane.

The funeral will take place MONDAY at the residence, 623 N. Fifth Street, at 11 o'clock A. M.

MAYNES.—Died, Saturday, October 28th, at the residence of her sister, Mrs. C. M. Duke, 210 N. Twentieth Street, Mrs. ALICE M. MAYNES, beloved wife of Charles P. Maynes.

Funeral notice later.

At Druggists or mailed, 25 cents each. Humphreys' Homeo. Medicine Co., Cor. William and John Streets, New York.

## RIOTERS SACK SHOPS; CITY IS IN FLAMES

Beyond preliminary arrangements for the dispatch of embassy mails on boats, however, no steps have yet been taken. Telegraphic communication with the interior is open, but the dispatches received are meagre. Communication with some places is entirely interrupted.

From all over the empire the story is the same—work stopped, no newspapers printed, schools closed, and the business life of the people suspended. The cry of the masses is always the same political liberty. The military everywhere are in possession, the inhabitants are terror-stricken, many cities are in darkness and at Revel a mob began work last night. The rioters sacked the shops, and this morning the city is on fire. The theatre and spirit shops are burning.

Kharkoff is under martial law. The most startling news, however, comes from Moscow, where all the political parties have joined in a resolution to set up the provincial government. Details are lacking, and the exact progress of this

## Dr. Humphreys' Seventy-Seven breaks up Grip and COLDS

You have tried "77" for La Grippe and Colds, now try Dr. Humphreys' Specific for Children's diseases—Fevers, Colds, Worms, Crying, Wakefulness, for Women's diseases—Weaknesses of every nature, for all ages for Bowel Complaints, for Dyspepsia, Indigestion and Weak Stomach, for Headaches and Neuralgia, for Rheumatism, Lumbago and Sciatica, for Kidney and Bladder trouble. They will prove just as satisfactory as "77." Medical Guide mailed free.

## Resolutions of Respect.

CAPT. CHARLES E. VAWTER, President of the Virginia Conference of Churches and Clergymen.

The Executive Council of this Conference, greatly bereaved by the loss of its president, adopts the following memorial:

CAPT. VAWTER passed away at 7 o'clock on the morning of Oct. 27, 1905, at his home in Chase City, Va.

He was a native of the State, and a member of the Virginia Conference of Churches and Clergymen.

His fervent piety, executive ability, attention to details, progressiveness, strong sense of duty, and his position as one of the most popular, successful and useful men in the South.

His employers, from the highest to the most humble, regarded him as the greatest man they had known.

This splendid qualities and the excellence of his school attracted citizens of other counties to Albemarle, so that by acquiring citizenship in that county, they might secure the best of the best of the school.

He was a member of the Virginia Conference of Churches and Clergymen, and a member of the Virginia Association of Ministers.
